SOFTWARE ENGINEER

## Professional Summary

As an experienced Full Stack Developer with over 4 years in the field, I specialize in creating robust web applications and driving product growth. My track record reflects a commitment to delivering high-quality software in fast-paced environments, focusing on scalability and performance optimization. I excel in collaborative, agile teams, ensuring timely delivery and continuous improvement. I am passionate about ongoing learning, and staying updated with industry trends to deliver innovative solutions that enhance user experience and support business objectives.

## Employment History

### Software Developer, JOBJACK, Cape Town

MAY 2021 – PRESENT

- Collaborate with product managers, designers, and other stakeholders to drive product growth and deliver innovative solutions.
- Develop and optimize front-end and back-end components to enhance performance and user experience.
- Conduct code reviews and provided constructive feedback to team members.
- Integrate third-party APIs and services to extend application functionality.
- Mentor and train junior developers, fostering a culture of continuous learning and improvement.

### Software Developer, ORACLE, Johannesburg

MARCH 2020 – MARCH 2021

- Implemented and updated application modules under the direction of Senior Developers.
- Created and maintained technical documentation to support ongoing development and future enhancements.
- Participated in agile development processes, including daily stand-ups, sprint planning, and retrospectives.
- Participated in code reviews, providing feedback and suggestions to improve code quality and maintainability.
